IEEE MTT-S Young Professionals and Women in Engineering/Microwaves Reception in APMC2026

Young Professionals (YP) and Women in Engineering/Microwaves (WIE/WIM) Reception is scheduled to be held at APMC 2026.
Students, Ph.D. candidates, early-career researchers and professionals from academia and industry, members within the YP and WIE/WIM communities, as well as all APMC 2026 participants, are warmly invited to attend the reception.

Date&Time: 17:15-19:30, Monday, November 9, 2026
Venue: 2F Hall, Fukuoka International Congress Center
Participation Fee: Free
Registration: Participants are requested to register in advance using the form below.
Those interested in presenting a poster can also apply through the same form.
https://forms.cloud.microsoft/r/UNyf4WwyKc

The event aims to provide opportunities for networking, collaboration, career development, and mentoring among young researchers, while encouraging informal interaction and idea exchange among participants from academia and industry and providing opportunities to learn about diverse career paths.

The event will include a standing-style reception with light food and beverages, as well as a poster session featuring students, Ph.D. candidates, young researchers and engineers, and women researchers and engineers.

Program Overview（*※The program is subject to change.*）

- Opening remarks
- Networking and free talk
- Poster session
    - Poster presentations by students and PhD candidates
    - Poster presentations by young researchers and young professionals, and women researchers and engineers
- Introduction to IEEE MTT-S / YP / WIE-WIM activities
- Networking and free talk
- Closing remarks

Call for Poster Presenters

Students, Ph.D. candidates, and early-career researchers and professionals from academia and industry within the YP and WIE/WIM communities, whose papers have been accepted for presentation at APMC 2026, are invited to participate as poster presenters.

Participation is free of charge, and outstanding poster presentations will be recognized with special awards.

The poster session will be held in a casual setting with light food and beverages, providing an opportunity to discuss your research in an informal atmosphere, exchange new ideas, explore potential collaborations, and connect with participants from academia and industry for future career development.

As the poster session is intended for authors of papers already accepted for presentation at APMC 2026, no additional peer-reviewed paper submission is required. Participants may also reuse the same poster prepared for their main APMC 2026 presentation.

Those who wish to present a poster should indicate their interest in poster presentation when completing the registration form above.

The poster presentation guidelines are as follows:

- Each poster presentation will be prepared using one poster panel.
  - Language: Englsih
  - Poster Panel Size: 0.9 meters (width) and 2.1 meters (height)
    (A0 size, 84.1 cm x 118.9 cm, can be used.)
    --Pins, tape, and other poster mounting materials will be provided at the venue.
